(2) Approval of Minutes: Regular meeting, January 6, 2016

Mr. J. Johnson moved to approve the minutes from the Regular meeting, January 6, 2016, as submitted. Second by Councilperson Duehring. All in favor. Minutes approved.

(3) Certificate of Appropriateness, continuation: Town of Abingdon, owner; P.O. Box 789, Abingdon, VA 24212; Kevin Worley, representative; application for Certificate of Appropriateness for exterior change. Located at 100 Remsburg Drive. Tax Map No. 012-1-125A.

Mr. Worley addressed the Board with an update on the application from the last meeting. They would like to go with a product called "clear span," which has a weave through it, for the window portion of the curtains in order to extend both the warrantee and the life of the product. For the material, they prefer the thicker gauge vinyl in either flat black or brown. The curtains are 12 feet in height, and the window section will be 52 inches tall. They have chosen the industrial application rather than the

residential application due to its heavier framing. Each booth will have their own curtain and be required to roll them up when the market is not in session, in order to preserve the curtains and also to display uniformity.

Board members would like to stress that they have stepped aside from the guidelines for this application, and the approval of this will not be setting a precedent for future applications. Other markets, such as the Charlestown market, have utilized this method and therefore they believe this application represents an appropriate use of material for this venue.

At this time, Mrs. White called for a motion. Councilperson Duehring moved that the application, as restated by Mrs. White, be accepted. Second by Mr. Neese.

Roll call vote as follows:

- (4) Certificate of Appropriateness: **Joe and Donna LeVine, owners; P.O. Box 1836, Abingdon, VA 24212; application for Certificate of Appropriateness for roof. Located at 340 Green Spring Road. Tax Map No. 013-1-177.**

Mr. LeVine addressed the board with a request to install a new standing seam roof on their home. They did not put the roof on their original application since they hadn't anticipated the need for it. They needed to take out their chimney for safety reasons, which left a hole in the roof. They want to replace the current non-standing seam roof with a true standing seam roof in a red, similar to the existing roof, black, or slate gray, in a style similar to the Presbyterian Church's roof. They also need to take the aluminum soffit off. There is bead board underneath, and they do not plan on covering that back up. Lastly, they would like to remove all the existing OGEE guttering and replace it with half round gutters and down spouts.

Mr. Taylor suggested they avoid 24 gauge roofing materials and not use exposed fasteners.

At this time, Mrs. White called for a motion. Mr. J. Johnson moved that the application be accepted, as stated. Second by Mr. Neese.

Roll call vote as follows:
